TECHNICAL SKILLS

Proficient At:

- C, C++, JavaScript, HTML, CSS, MongoDB, SQL, React, Git, GitHub

Frameworks:

- Node.js, Express.js, React.js, Bootstrap

PROJECTS

E-commerce website

- Designed and Build fully working E-commerce Website with back-end on **Node.js**, **Express.js**, and **MongoDB database**.
- Integrated with **Stripe payment gateway** which allows user to pay via Credit cards and Debit cards.
- Created its front-end with the help of **Hooks and States in React.js**.
- Played the role of **Full Stack Developer**.
- Utilized **HTML**, **CSS** and **Bootstrap** to have a user-friendly front end.

Keeper App

- Developed the clone of Google Keep using **Hooks and States in React.js**
- Created separate components for Notes, input Area, header and footer.
- Added the features to dynamically Add and Delete Notes by passing required parameters to each of the components.

Newsletter Signup

- Developed a Newsletter Signup page which sends the data entered to the **mailchimp's servers via API calls**
- Created the website using the standard login page of bootstrap which collects user's name and email.
- Tech used:- **Express.js**, **Node.js**, **Mailchimp API**, **JSON**, **HTML/CSS**

INTERNSHIP/WORK
